

About Battery

Important Notes

! Please prepare the right batteries and fully charge them before assembling.

Assembling the robot without right batteries will cause installation errors and damage the servos.

! The control board connected to the USB cable will not charge the batteries. So you also need a charger.

Almost any charger suitable for 18650 batteries can be used.

Purchase Links

Please find the battery description and purchase links on the following page:

https://github.com/Freenove/Freenove_Battery_List/blob/main/18650_Flat-Top_Unprotected.md

! Some links in the list may be invalid, please select other available links or purchase by yourself.

! If you need help or want to report a link failure, please contact support@freenove.com
